04/2013

- Percentage Obtain: 66.66
-

Projects

1. Local Expert

Description: This e-commerce application caters to the Australian region, offering a convenient platform for users to locate service providers and tradespeople swiftly. The app enables local experts to secure job opportunities by easily creating and sending quotes to clients. Upon approval of a quote, users can proceed to the specified location to complete the requested services. Simplifying the process of connecting clients with skilled professionals, the app streamlines job acquisition and enhances user experience in the Australian service industry.
