## PROFESSIONAL SUMMARY

Enthusiastic and highly motivated MCA graduate with a passion for language shift and a fresh perspective on the dynamic world of technology. Eager to embark on a career that leverages my strong educational background and embraces the evolving landscape of languages and technology.

## SKILLS

- Swift
- XCode
- Mac OSX
- Rest API
- CocoaPods
- MVC

## PROJECT

The "**Shopping Demo App**" iOS demo follows the MVC pattern, ensuring simple and organized code. It securely logs in, displays internet-sourced product lists with swift image loading using Swift, URLSession, Decodable, and Kingfisher.

**Secure Login:** Implemented with Swift and URLSession for safe user authentication.

**Dynamic Product Display:** Utilized Swift, URLSession, Decodable, and JSON Decoder for fetching and presenting product information.

**Clean Codebase:** Followed the Model-View-Controller (MVC) pattern for organized and maintainable code.

**Enhanced UI:** Used Kingfisher for asynchronous loading of product images, and custom-designed UITableViewCell with XIB files.

**Dependency Management:** Handled external dependencies with CocoaPods, simplifying project setup and updates.

**User Interaction:** Improved interactivity with pull-to-refresh functionality for effortless product information updates.
