

# YASH SHEKHDA

## ➤ Profession summary

Experienced Full-Stack Developer with 3 Years of hands-on experience. Skilled in delivering responsive web applications with a focus on user experience. Seeking dynamic projects to contribute expertise within a collaborative team.

## ➤ Skills

- Front-end: HTML, CSS, JAVASCRIPT
- Back-end: PHP
- Frameworks: BOOTSTRAP, JQuery, Laravel

## ➤ Professional Experience

### Freelancing

Aug 2021 - Dec 2023

- Throughout my freelancing journey, I've successfully executed a myriad of client projects, showcasing proficiency in developing business-oriented solutions. My expertise extends to crafting engaging business websites that encapsulate brand essence while ensuring a seamless user experience. Specializing in Shopify plugins, I've tailored solutions to enhance e-commerce functionalities, streamline checkouts, and integrate third-party services, prioritizing both functionality and user-friendly interfaces for an enhanced shopping experience

### Mountain solutions

Jan 2020 - Aug 2021

- During my tenure at this company, I've successfully developed numerous websites and plugins.
- I crafted distinct websites for clients using Html, Css, Bootstrap and developed corresponding APIs in Laravel to enhance functionality and user experience.
- I engineered a Shopify plugin using Polaris for the frontend, and PHP and Laravel for the backend, seamlessly integrating GraphQL, Ajax and Rest APIs to ensure optimal performance and functionality.

## ➤ Projects

### Sale Max Application

- This Shopify application is tailor-made for merchants seeking to enhance their website's checkout functionality. Through this application, merchants can implement advanced discounting strategies, offering various discounts to users and optimizing sales performance.
- Frontend: Html, CSS, Bootstrap, JQuery, Polaris
- Backend: PHP, Laravel

### Tourly

- This client project involves creating the front end using HTML, CSS, and Bootstrap, incorporating various JavaScript libraries for enhanced functionality, while the backend is developed with Laravel to provide a robust API.
- I designed the admin panel UI for this project using HTML, CSS, and Bootstrap, seamlessly integrating it with Laravel APIs to ensure efficient communication and data management.
- Frontend: Html, CSS, Bootstrap, JQuery
- Backend: Laravel

## **Png materials**

- This client project focuses on optimizing a website's speed. The website's initial development resulted in slow performance, adversely affecting user experience. Our goal is to enhance speed and overall performance for a better user experience.
- I made the website twice as fast as its previous state by eliminating unused code and modifying certain functionalities
- Frontend : Html, CSS, Bootstrap, JQuery
- Backend : PHP

## **Age verification popup**

- This Shopify application is specifically designed for merchants dealing with age-restricted products. The website facilitates user verification, ensuring compliance with age restrictions for the sale of products intended for individuals aged 18 and above.
- Frontend: Html, CSS, Bootstrap, JQuery, Polaris
- Backend: PHP, Laravel
