VLSI Designing

Programming

PROJECT

Gas Leakage Alert System

With the help of Internet of Things and MQ6 sensors it can alert if there is any gas leakage through SMS and alarm and there will continuous Gas level monitoring and automatic LPG booking if there gas if going to over It automatically books new LPG .

Strengths:

Flexible

Adoptable

Quick Learner

Team player

TECHNICAL SUMMERY

React js

- Worked on the development of web application using React and SQL
- Development new features and enhancements for web applications.
- Implemented responsive web applications.
- Practically implemented Prepared Statement and Performed CRUD op...
- Solid Understanding of API calls.
- Creating and Desing web applications

SQL:

Comfortable in Writing SQL Queries.

Decent Knowledge of Joins and Sub-Queries.

Good Understanding of SQL Commands.

TECHNICAL SKILLS:

PROGRAMMING LANGUAGE: Java , C , Python

DATABASE: My-SQL.

WEB TECHNOLOGIES: HTML, CSS, Java-Script, React js

UNIT TESTING FRAMEWORKS: JUnit

CLOUD TECHNOLOGIES: AWS

TOOLS: Eclipse , Visual Studio

CERTIFICATION:

-Coursera – Web development Course

-IBM – IBM certified Data Science fundamentals

EXPERIENCE

INTERNSHIP

SVB Enterprise May-2020

Built a responsive chit fund website

Enhancing efficiency in tracking and managing financial records and generating comprehensive reports

Rail Nilyam March-2021

This internship focused on latest technology IoT

I actively contributed to the implementation and development on IoT projects

Project based on home automation using Io.
