PROJECTS

TO-DO LIST APP (03/2023 - 05/2023)

- https://github.com/Nishant123467/flutter_demo
- I designed and developed a responsive to-do list app by using **Dart, Flutter and Firebase**
- The primary purpose of the Todo List app is to provide users with a digital platform to manage their tasks effectively. By replacing traditional pen-and-paper lists,
- Each user has their own account ensuring that tasks are private and tailored to their needs.
- The Todo List app is a versatile and user-friendly mobile application designed to help users manage their tasks and organize their daily activities.

COVID-19 TRACKER APP (05/2022 - 07/2022)

- I designed and developed a responsive covid-19 tracker app by using **Dart, Flutter Firebase and API.**
- The main purpose of covid-19 tracker app is such as tracking covid-19 cases, providing information or visualizing data. over all world and country wise.
- Integrated **APIs** to fetch real time COVID-19 data .such as the number of cases ,recoveries and deaths.
- Visualized COVID-19 data using charts within the app presenting data in an understandable and informative way.

E-COMMERCE APP (01/2021 - 02/2021)

- I designed and developed a responsive E-commerce app by using **Dart, Flutter and JSON.**
- I have worked in the fronted and also implement json data.
- Allow user to find required shops product directly.
- The app is a versatile and user-friendly mobile application designed to help users manage their product .
