## EDUCATION

---

### **Full Stack Development intern**

june'23- Ongoing

KodNest

### **Bachelor of Technology in Computer Science and Engineering**

2019-23

KSRM College Of Engineering

CGPA: 7.96

## PERSONAL PROJECTS

---

### **Vehicle Speed Detection**

A machine Learning Project using python

- This Project is to detect the speed of a vehicle with respect to the data from a recorded video source and live stream.
- The speed detection is able to detect vehicles speed even with multiple vehicles.
- It can be used to manage traffic and avoid accidents at low price.
- Technology Used: Python, Machine Learning, MySQL.

### **Stock Price Prediction(Internship)**

A machine Learning project using python

- Stock price Prediction using machine Learning helps you discover the future value of company stock and other financial assets.
- Here I created memory using Long Short Term Memory and Recurrent Neural Networks to predict stock price indices and finally found how actual and predicted values are varying in order to check model accuracy.
- Technology Used: Machine Learning, python.

### **Fake News Detection**

A machine learning project using python.

- Fake news detection is a subtask of text classification and is often defined as the task of classifying news as real or fake.
- The term fake news refers to the false or misleading information that appears as real news. It aims to deceive or mislead people.
- Our model takes input from the user and classifies it to be true or fake using various NLP and Machine Learning techniques.
- Technology Used : Machine Learning , python, MYSQL

## TECHNICAL SKILLS AND INTERESTS

---

**Languages:** Core Java, Python, C, HTML( basics)

**Databases:** DBMS(basics)

**Areas of Interest:** Software Developer, Web design and Development.

**Soft Skills:** Problem Solving, Self-learning, Presentation, Adaptability

## POSITION OF RESPONSIBILITY

---

### **Responsible actions**

- Helped to orphanage people
- Coordinated various technical events in college.

## CERTIFICATION

---

### **certifications**

- Certified for the "completion of Internship" by Indian Servers
- Certified in "Smart India Hackathon" program
