## EDUCATION

### Bachelor in Engineering

Sandip Institute of Technology and Research Center

12/2020 – 07/2023,

8.45- CGPA

Course

– Information Technology

### Diploma

Sandip Foundation's Sandip polytechnic, Nashik

06/2017 - 10/2020,

86.31%

Course

– Information Technology

## INTERNSHIP

### Web Developer & Graphic Designing Intern

Oasis Infobyte

04/2022 - 05/2022,

Pune

Tasks

- Designed web pages that met business and user goals which increased user satisfaction by an average of 20%.
- Designed mockups for a user experience that improved user experience.

## SKILLS

C / C++

Java

Data Structure

HTML

Python

MySQL

OOPs Concepts

CSS

## PERSONAL PROJECTS

### Automatic Text Summarization

- To develop a model that does extractive text summarization along with finding and evaluating which parameters and machine learning and deep learning algorithms optimize the working of the model.

### User Test Environment

- UI are the most important part and can be considered as the attractive part of the application or website. So, to look more attractive the website's UI must be Quality Tested and should be deployed as per Expectations. So, we are developing the UITE tool, which will test and validate the User Interface as per expectations, and of the expectations doesn't meet it will be report top developer.

## ACHIEVEMENTS

- State Level Project Competition -Partition Certificate
- State Level Poster competition -Partition Certificate
- SPORT COMPETITION Cricket -First Prize
- Virtusa Hackathon Participation Certificate
- Completed Python Certification Course
- Certificate for Fullstack Web Development Session at Edureka.
- Certificate for Cloud Computing with Web Services and Vmware Certification.
- 

## TRAINING

### Trainee

### KP Techno Bricks

Nashik, Maharashtra

Learned Software Engineering process improvement and best practices.

## SOFT SKILLS
