- Computer Science & Engineering/Computer Science & Technology

WORK EXPERIENCE

Assistant System Engineer Trainee

TATA Consultancy Services

10/2021 - 03/2022

Kolkata, INDIA

Designed the Retail Store app for a US-based client using React Native

Tasks/Knowledge

- Designed the **Welcome Page** of the app with the brand intro and logo ensuring high performance and responsiveness.
- Worked on the **login authentication page with proper validation checks**.
- Designed the **Menu Bar, Header, Main Body, Footer of the List Items showcase page**.
- Implemented the Data Fetching from Server using **UseState, useEffect, async-await, and JSON parsing**. Made use of the FlatList to show the data fetched in a proper way.
- Imported and used **third-party Icons, Google Fonts** in order to make the app look more appealing.
- Aware of essential items in React Native like **Props, Buttons, importing Images, ScrollView, SafeArea View, Touchable Opacity, Navigation, Pressable, ActivityScroll Indicator**, etc.
- Decent command in CSS and used all relevant concepts increase the appeal of the application like **FlexBox, Aligning items, setting width, height, margins, fontSize, resizeMode, setting positions based on parent-child relationship, setting borders, zIndex, padding, dimensions**, etc.
- Know about setting up the React Native environment and installation from scratch. Used **Git** for version control.
