

Certifications | Internships

Geekster | Geekster Coding Bootcamp

- Demonstrated proficiency in Data Structures and Algorithms (DSA) by successfully solving 300+ coding questions on the Geekster platform.
- Showcased coding skills through active participation in Geekster's coding contests.
- Developed User Management System and Restaurant Management Service during project work.
- Skilled in **Java, C, C++, Spring Boot, Hibernate, Rest APIs, AWS-EC2 and SQL.**

Biztime IT Solutions Pvt. Ltd, Bangalore | Internship

- Worked as Intern Software developer.
- Developed a web page showing the status of corona virus in India by using HTML, CSS, Bootstrap.

Projects

Restaurant Management Service [\[Github Link\]](#)

- Developed a comprehensive Restaurant Management Service with CRUD operations like create, read, update and delete, leveraging Restful APIs for seamless data management.
- Key Features: Efficiently manages food items, user accounts, and orders to streamline restaurant operations. User-friendly interface for easy CRUD operations on food items. Secure user registration, login, and access control. Comprehensive order handling, including placement, tracking, and processing.
- Tech Stack: **Java, Spring Boot, MVC Architecture, MySQL, Git version control, Postman.**

University Event Management [\[Github Link\]](#)

- Developed a dynamic University Management System utilizing Restful web services and APIs for seamless manipulation of student and event data. Intuitive interfaces enable effortless CRUD operations, ensuring efficient management of records while maintaining data integrity.
- Key Features: Intuitive interfaces for adding, retrieving, updating, and deleting records. Utilized Spring Boot and Spring Validation frameworks for data integrity.
- Tech Stack: **Java, Spring Boot, H2, Postman, git version control.**

Skills

- **Computer Language** : Java, C Programming, C++ Programming, SQL
- **Frameworks / Libraries** : Spring Boot, Hibernate
- **Additional Courses** : Data Structure and Algorithms, OOP
- **Tools & Technologies** : Git, Maven, IntelliJ IDEA, NetBeans, Postman, AWS EC-2, ChatGPT, GitHub

Education

Year	Degree/Examination	Institution/ Board	Percentage/CGPA
2017-2021	B.Tech (Computer Science and Engineering)	MS Ramaiah University Of Applied Sciences, Bangalore	7.31
2015	12th	Sunbeam Academy	69.00%
2013	10th	Children's Academy	7.8

Achievements and Co-Curricular Activities

- Tech Event Coordinator at Ramaiah University, Bangalore. It was a tech event organized by the Department of Computer Science and Technology for Advanced Studies & Research.
- Got 2nd Rank in Race in Annual Sports day, Children's Academy.
