

MALLIKARJUNAREDDY CHITIKI

Bangalore, Karnataka - 560037| (+91) 8096018847| mallikarjunareddy8890@gmail.com

PROFILE SUMMARY

Dedicated and skilled Java Developer with 8 months of training experience in designing, developing, and maintaining robust software applications. Proficient in both front-end and back-end development, utilizing **Java**, **Spring Framework**, **HTML**, **CSS**, **JavaScript**, and **SQL**. Skilled in creating responsive and user-friendly web applications. Strong problem-solving abilities and a collaborative team player. Adept at working in **Agile** environments delivering high-quality code and meeting project deadlines.

SKILLS AND ACCOMPLISHMENTS

- **Java Programming:** Demonstrated expertise in Java programming language, including object-oriented concepts and best practices.
- **Software Development:** Proven experience in designing, coding, testing, and maintaining software applications using Java.
- **Spring Framework:** Familiarity with the Spring framework for building scalable and efficient Java applications.
- **Web Technologies:** Knowledge on web technologies concepts like HTML, CSS and JavaScript.
- **Backend Development:** Proficiency in developing server-side applications, APIs, and databases using Java.
- **Web Development :** Knowledge of web development concepts, including RESTful APIs, servlets, and JSP.
- **Object-Oriented Design:** Thorough understanding of object-oriented design principles and design patterns for creating maintainable code.
- **Database Integration:** Skill in integrating Java applications with databases, including SQL and ORM frameworks like Hibernate.
- **Multithreading :** Knowledge of multithreading and concurrency to create efficient and responsive applications.
- **Agile Methodologies:** Experience working in Agile development environments, following practices such as Scrum.
- **Version Control/Git:** Proficiency in using version control systems like Git to manage codebase changes and collaborate effectively.
- Collaborated with a team of developers to design, develop, and maintain a customer-facing web application using Java and Spring Boot.
- Implemented RESTful APIs for seamless communication between frontend and backend systems, enhancing user experience.

- Integrated Hibernate ORM to manage and persist data in a MySQL database, optimizing data retrieval and storage.
- Contributed to the development of a microservices architecture, improving system scalability and maintainability.

EDUCATION

Annamacharya Institute Of Technology and Sciences , Tirupati – Bachelor Of Technology (ECE)

August 2018 -July 2022

CGPA : 6.58/10

Krishna Reddy Siddhartha Junior College , Madanapalle - HSC

August 2016 – April 2018

Percentage : 67%

Z . P High School , Gurramkonda – SSC

June 2015 – April 2016

CGPA : 7.7/10

PROJECTS

Library Management System:

- The Library Management System is a software project developed in Node.js, React, Android, and MYSQL. It simplifies library operations such as adding books, updating information, searching, and member transactions. Users can borrow and return books easily through its user-friendly web interface.

Shop For Home:

- E-commerce website facilitating retailers to list their shops, manage orders, and serve customers. Employing React for the frontend, Spring Boot for the backend, and MySQL for the database, the project utilized STS as the integrated development environment and Tomcat as the embedded server. Additionally, the website incorporated technologies such as HTML5, CSS, JavaScript, Core Java, and JSON for comprehensive functionality.

CERTIFICATIONS:

- Java Full Stack Development
- Introduction To Front End Development
- Java Spring Basics
- Java Hibernate Basics
