Location: Bengaluru

Enthusiastic Electrical Engineer with a profound understanding of software development, specializing in full-stack development. Skilled in building dynamic websites utilizing libraries such as React, and frameworks including Node.js and Java. Possesses a solid grasp of database concepts and exhibits a strong eagerness to acquire knowledge in various technology domains.

## SKILLS

**Programming Language:** Java, Javascript

**Frameworks:** Spring, Hibernate, Node Js, React Library

**UI development:** HTML, CSS(Tailwind, Bootstrap)

**Database :** SQL

## Projects and Experience:

### 1. Worked as an Intern at 8ASE, Location - Bengaluru

Duration : 6 months

**Employee Dashboard (Task Management) :** Designed and developed an Employee Dashboard, featuring task management functionalities. Utilized **React** to build dynamic and responsive user interfaces. Integrated **Tailwind CSS** to enhance the styling and overall user experience. Shared the repo [here](#).

### 2. Training Project - E-Commerce Shopping Cart

Contributed to the development of a robust *E-Commerce Shopping Cart* utilizing **Java**, **JDBC**, **Spring**, and **Postman**. Orchestrated seamless data management and retrieval through the integration of **Java and JDBC**, enhancing the application's back-end functionality. Leveraged the **Spring framework** to ensure modularity and streamlined dependency injection, fostering a scalable architecture. Adeptly integrated and rigorously tested APIs using **Postman**.

## EDUCATION

### Bengal College of Engineering and Technology - 2017-2021

- B.Tech in Electrical Engineering with a cgpa of 8.6
