### About Me

Strong passion for web development and a solid foundation in front-end and back-end technologies, including HTML, CSS, JavaScript and React.JS . Eager to apply my coding skills and creativity to real-world projects, and excited to collaborate with experienced developers to further develop my expertise. Proven ability to quickly grasp new concepts and technologies.

### Education Background

- Bachelor of Technology 2018-2022  
*Sri Venkateshwara University College of Engineering*  
CGPA : 7.1
- Intermediate 2016-2018  
*Sri Chaitanya Junior College*  
Percentage : 94%
- Secondary School Certificate 2015-2016  
*Vijayanikethan EM High school*  
CGPA : 9.7

### Internship

PurpleData Technologies Inc Present-2023

Key Responsibilities :

- Working alongside graphic Designers for web design features.
- Developing back-end website applications.
- Creating servers and database for functionality.

### Projects

#### Internship Project

Title: Cloud Cost Optimization

- Implementing secure user authentication to ensure that only authorized users can access and interact with the cloud cost optimization tool.
- Ensuring that the application is responsive and works well on different devices and screen sizes. Consider the mobile user experience for users who may need to check costs on the go.
- Integrating the application with cloud provider APIs to fetch real-time data and updates. This ensures that users have the latest information at their fingertips.
- Thoroughly testing the application to ensure performance, security, and reliability. Identifying and addressing any bottlenecks or issues that could impact the user experience.

#### Personal Projects

- I have done some Mini-Projects (Eg : Form Validation, Calculator) using HTML, CSS, Javascript, React JS

### Achievements

- Project Expo : Got 1st prize in project expo.
- Flashmob : Got a prize in my college Flashmob.
