- Gaining hands-on experience in implementing APIs and integrating third-party libraries.
 - Participate in code reviews to ensure high- quality, efficient, and maintainable code.
 - Worked on third party libraries like Geo-location and Voice call using Agora.

EDUCATION

- 8/2018 – 8/2022 **Gaya College of Engineering, Gaya** 8.61 CGPA
Computer Science and Engineering
- 3/2027 – 3/2018 **Adarsh Gyanodaya** 78/100
Senior Secondary Examination
- 3/2015 – 3/2016 **Vidya Sanskar School** 9.8 CGPA
Secondary School Examination

PROJECTS

- React Native **Aarogya Seva CRM** (github)
Empowers healthcare business associates to gather doctor feedback, plan follow-ups, submit monthly plans, and efficiently manage tasks. Streamlining healthcare operations for optimal effectiveness.
- React Native **KIMS for BA and Patient** (github)
The KIMS App facilitates seamless appointment bookings for patients with doctors and labs, allowing Business Associates to earn commissions. Patients benefit from easy access to healthcare services, while BAs can track appointment statuses and commissions, creating a streamlined and rewarding healthcare experience.
- React Native **Evato (Play Store)** (github)
Evato is a self-drive electric bike rental app that makes it easy to get around your city without having to worry about traffic, parking, or gas. With Evato, you can simply find an available bike near you, unlock it with your phone, and ride away. When you're finished, simply park the bike in a designated area and lock it with your phone.
- React Js **Wallet Implementation** (github)
Accomplished wallet implementation specialist with a focus on elevating user experiences. Successfully integrated Google Wallet, Samsung Wallet, and Apple Wallet functionalities in the Coach USA Project.
