EDUCATION

Bachelor of Engineering RNS INSTITUTE OF TECHNOLOGY

08/2019 - 06/2023

Course

- Information Science and Engineering

PUC

Vision PU College

06/2017 - 05/2019

Course

- PCMB

SSLC

Jnana Bodhini School

06/2016 - 06/2017

Course

- Science

WORK EXPERIENCE

Intern

Inflow Technologies

03/2022 - 05/2023

Achievements/Tasks

- Utilized Tableau to create interactive reports and dashboards, enabling stakeholders to make data-driven decisions.

SKILLS

Java

Python

C

Object-Oriented Programming

SQL

DBMS

Tableau

PERSONAL PROJECTS

Election Management System

- The project is simple Data Structure project in C using Linked Lists.
- We designed it in such a way that, it registers all candidates and voters uniquely based on their voter id and ask voters to cast their vote and declares the winner.
- Every candidate and voter are secured by username and password.

Student Management System

- The DBMS project allows user registration, where users are designated as administrators.
- Administrators can add, edit, and manage student details, including recording department-specific attendance.
- Administrators can search for specific students by their respective roll numbers.

Car Price Analysis

- Employed Tableau for data analysis and visualizations, providing valuable insights to potential used car buyers.
- Developed interactive Tableau dashboards showcasing pricing trends, mileage analysis, and brand/model comparisons, leading to improved customer satisfaction and conversion rates.
- These insights streamlined the car purchasing process, reducing decision-making time and enhancing the overall buying experience.
