

CURRICULAM VITAE

Name : Ms. Kiran Vasant Thorat
Email ID : thoratkiran0632@gmail.com
Mobile No. : +919561700950
GITHUB : <https://github.com/ThoratKiran1210?tab=repositories>

❖ OBJECTIVE

I am an organized, efficient and hard-working person, and am willing to discover and accept new ideas which can be put into practice effectively. I am a good listener and learner, able to communicate well with a group and on an individual level.

❖ PROFESSIONAL EXPERIENCE

Itonic Labs (period of -20-5-2023 - 20-8-2023)
Intern- Front-end Developer (React Native)

The responsibilities of this role require the design, development and overall maintenance of mobile application utilizing React Native. The acceptance of performance for both Android and iOS platform this position demands close collaboration with front end developer and designers to ensure the creation of responsive and user-friendly mobile interface that align with UI/ UX designs. Duties include optimizing applications performance, identifying and troubleshoot bugs, errors and performance as well as through testing to ensure correct functionality across various and screen size.

❖ TECHNICAL SKILLS

- HTML / CSS
- JAVASCRIPT
- REACT, REACT NATIVE
- TYPESCRIPT

❖ PROJECTS

- **Calculator** <https://github.com/ThoratKiran1210/Calculator>

This React code creates a simple calculator interface that performs basic arithmetic operations like addition, subtraction, multiplication, and division. Users can input numbers, perform calculations, and clear the input.

- **To-Do-List** <https://github.com/ThoratKiran1210/To-do-list-react>

This code creates a basic to-do list app in React Native which allows users to add tasks, mark them as complete and manage the task list using state.

- **Password Generator** <https://github.com/ThoratKiran1210/PassWordGenerator>

A React-based password generator app is created with customizable password options and a simple copy-to-clipboard feature.

- Counter

<https://github.com/ThoratKiran1210/CounterApp>

This code produces a timer app that can start, stop, and resume. It uses React Native components and state management to keep track of and display elapsed time. The timer updates every 0.2 seconds, and the user can control it using the provided buttons. The background can be customized by changing the source of the GIF.
