**Languages:** English, Telugu, Hindi

## Soft Skills

---

- Time Management
- Effective Communication
- Problem Solving
- Leadership

## Projects

---

### **A Machine Learning YouTube Spam Comments Detection**

- Description: It is used to detect YouTube comments that are likely to be spam. The goal of this detection is to identify comments that are potentially malicious and need to be moderated.
- Methodology: A machine learning algorithm can be trained on a dataset of labeled comments (spam vs. non-spam) can be used to automatically classify new comments as either spam or not.

### **An Efficient Password Authentication and Management Using SPHF and PHS for Mobile Devices**

- Description: The motive behind using SPHF (Secure Password Hash Functions) and PHS (Password Hashing Schemes) for password authentication and management is to increase the security of user passwords on mobile devices.
- Methodology: By employing SPHF and PHS, users can be confident that their passwords are well-protected, even if their mobile devices are lost or stolen.
