SKILLS

PROGRAMMING

Front End:

JavaScript · React Js · Redux ·
Sass · Material Ui

Back End:

Nodejs · Express js · MongoDB

Tools:

Git · Postman · JSON

Core:

- Java , C++ , Cloud
- Data Structure Algorithm
- Networking
- DBMS

DOMAIN

Front End Development
Back End Development
Full Stack Development
RESTful API Development

HOBBIES

Playing Cricket
Volleyball
Chess
Video Games

PROFILE

As a recent graduate with a passion for technology, Armed with a solid foundation in coding and problem-solving skills. I'm committed to learning, adapting, and making a positive impact through innovative solutions

PROJECTS | AIRLINE TICKET BOOKING SYSTEM | GITHUB

Backend:- | Node js | MongoDB | Express Js | Authentications

- Developed a robust flight booking service using Node.js, MongoDB, and Express.js, adhering to industry-standard coding practices..
- Implemented secure authorization mechanisms for user authentication and authorization
- Utilized microservices architecture to ensure scalability and maintainability
- Designed a RESTful API with CRUD operations for efficient data handling.

TWITTER APPLICATION SYSTEM | GITHUB

Backend:- | Node js | MongoDB | Express Js

- Created a Twitter application using Node.js, Express, and MongoDB, integrating microservices for enhanced scalability.
- Developed a comprehensive RESTful API with CRUD operations for posts, likes, retweets, and comments.
- Implemented robust user authorization for secure access control.
- Enabled media uploads, allowing users to share images seamlessly within the application

PERSONAL PORTFOLIO | GITHUB

FrontEnd :- Html , Sass , Javascript , React , Sanity, Material ui

- Designed and developed a dynamic personal portfolio website using React and JavaScript.
- Integrated data from various platforms through APIs for real-time content updates
- Implemented responsive design with Sass for visually appealing and user-friendly styling.
- Demonstrated adaptability and resourcefulness by integrating external APIs to enhance website functionality.

MODERN RESTAURANT WEBSITE | GITHUB

FrontEnd :- Html , Css , Javascript , React , Redux , Api , Shimmer ui

- Created a restaurant website with menu, ordering, and reservation features using React
- Implemented industry-standard coding practices, including modular programming, version control, and enhanced user experience with Shimmer UI, Hooks, and Redux
- Employed Hooks and Redux for effective state management and seamless user interactions.

CERTIFICATIONS

- AWS Cloud Practitioner Essential + Azure 900 (Azure fundamental certificate)

CODINGS

- 350+ questions solved on GFG leetcode
