EDUCATION

B-Tech in Computer Science And Engineering

Jawaharlal Nehru Technological University Kakinada

08/2017 - 08/2021

6.56 CGPA

Higher Education

Andhra Kesari Vidya Kendram

06/2015 - 06/2017

89.2%

Secondary Education

Gandhi High School

05/2014 - 05/2015

7.5GPA

PERSONAL PROJECTS

NetflixGPT3.5: The Ultimate Streaming Experience

- **Authentication:** Implemented secure user authentication systems using Firebase, ensuring a robust and reliable login experience.
- **ReduxJS:** Demonstrated proficiency in ReduxJS for efficient state management, contributing to scalable and predictable React applications.
- **Tailwind CSS:** Excelled in utilizing Tailwind CSS to enhance the aesthetic appeal of user interfaces, creating visually pleasing and responsive designs
- **Firebase:** Implemented and leveraged Firebase for secure authentication and backend infrastructure, contributing to a reliable and scalable application architecture.
- **ReactJS:** Showcased expertise in developing dynamic and interactive user interfaces with ReactJS, ensuring a seamless and enjoyable user experience.
- **OpenAI GPT-3.5:** Integrated the power of OpenAI GPT-3.5 for advanced natural language processing, elevating applications with intelligent content search and recommendation features.

HelloTube : YOUTUBE CLONE

- HelloTube is an advanced video streaming application built with React.js, React Router DOM, and Redux.
- In addition to its video streaming capabilities, HelloTube boasts an innovative live chat system
- Leveraging React's state management capabilities, the live chat enables users to engage in real-time discussions with nested comment threads, creating a vibrant and interactive community within the HelloTube platform.
- Integrated seamlessly with YouTube APIs, HelloTube provides a rich, dynamic experience for discovering and streaming videos
- The project showcases mastery of React concepts, offering a comprehensive solution for video streaming and engaging live conversations.
