SKILLS

- C
- Java
- Flutter
- Dart
- SQL

DEVELOPMENT TOOLS

- Git
- Microsoft Visual Studio
- IntelliJ IDEA

PROJECTS

• Flash Message App - Flutter

Developed a real-time chat application that enables users to communicate with each other seamlessly. The project consisted of several key screens and components, all integrated with Firebase services for user authentication and real-time message management.

• Food Recipe App- Flutter

Developed a Flutter-based recipe app that empowers users to search for recipes, explore recipe categories, and access in-depth recipe details. The app includes features for recipe search, category display, and presenting detailed recipes using a web view.
