An enthusiastic and diligent individual seeking an entry-level Front end developer position, possessing exemplary organizational skills and a strong work ethic. I am eager to contribute to a team's collaborative efforts in achieving company objectives.

## EDUCATION

GOVERNMENT ENGINEERING COLLEGE  
BE, ME

(December 31, 2019 - August 09, 2023)

## PROJECTS

### E-COMMERCE WEBSITE

Web Application

- An E-commerce application using React.js for front end
- Context API for storing data and Firebase for authentication
- React Router for page navigation , GitHub for version control, Firebase for authentication and deployment

<https://github.com/bhuvanesh-hj/my-project/tree/master/shopping-cart>

React.js, Context API, Firebase, React Router, GitHub, HTML, CSS

### EXPENSE TRACKER

Web Application

- Developed an expense tracker app in which user can add, delete and update expense
- Premium feature are also introduced to get dark mode and Download expenses
- Utilize React.js library for creating this website, Redux for state management, GitHub for version control , Firebase for storing data and authentication

<https://github.com/bhuvanesh-hj/my-project/tree/master/expense-tracker>

React.js, Redux, React Router, Firebase, HTML, CSS, GIT

### MAIL BOX CLIENT

Web Application

- I created a website for a mailbox client where registered users can receive and send mail to each other.
- Users can also check the number of unread messages they have.
- This application was developed using the React.js library for building the user interface, Redux for managing application state, GitHub for version control, and Firebase for storing data.

<https://github.com/bhuvanesh-hj/my-project/tree/Email-Client-Box/email-client-box>

React.js , Redux , React Router, Firebase , HTML , CSS, GIT

### Interactive Restaurant Web Page

Web Application

- A functional single page application with Restaurant menu, Cart and a beautiful landing page.
- Developed using ReactJS, various react hooks and context API were used to add the desired functionalities

<https://github.com/bhuvanesh-hj/my-project/tree/master/Creating%20a%20restaurant%20app>

React.js, Context API, HTML, CSS, GIT, BOOTSTRAP.
