## PROFILE

I'm Debasish, a product designer who combines research, strategy, rapid prototyping, interaction and visual design to transform complex problems into elegant solutions.

Designing for more than two years in the young, rapidly growing startups taught me how to balance business goals and engineering constraints. Experienced designing for websites, mobile application(Both android and ios), tablets and wearables as well. Proficiency with in demand tools like Figma, Sketch, Adobe XD, Framer and more. Ability to collaborate across UX, Engineering and Product Management
