PROJECTS

SMART ASSISTANCE GLOVES FOR DISABLED PEOPLE

- The main objective of this project is to help disabled people to communicate with normal people. Because a deaf or paralyzed person cannot communicate, these smart gloves allow him to turn his hand gestures into text and pre-recorded audio. This also helps a normal person to understand what he/she is trying to say and reply accordingly.

GESTURE CONTROLLED HOME AUTOMATIONS

- This project is designed to control different electronic devices with the help of hand movement. We are using gestures of hand as a remote to control home appliances like Tube, fan etc. instead of using manually. All these electronic devices can be controlled by transmitter- receiver system.

SKILLS

Java

MySQL

HTML

CSS

JDBC

Hibernate

Python

Effective Communication

Problem Solving

Time Management

ACHIEVEMENTS

Won Trophy in college cricket championship

Received 1st prize in Treasure Hunt Competition conducted by College, 2022.

CERTIFICATES

Java Certification(java Oops feature)
(03/2023 - 04/2023)

Completed Java certification course from Udemy

The SQL Primer Master Class from UDEMY
(06/2023 - 07/2023)

Certified on MySQL from "The SQL Primer Master Crash Course " course of Udemy
