English

## PROFILE SUMMARY

Enthusiastic Python developer with expertise in SQL, MYSQL, HTML, and CSS. A fresh graduate with a strong foundation in software development, eager to contribute creative solutions and collaborate on dynamic projects."

## PROJECTS

### Project 1

#### Delivery Management System

- Designed and implemented a user-friendly Delivery Management System using Tkinter, showcasing proficiency in creating intuitive and visually appealing graphical interfaces in Python.
- Developed interactive features and functionalities within the Tkinter framework, allowing users to efficiently manage and track deliveries, highlighting skills in event-driven programming and user interface responsiveness.
- Took ownership of the entire project lifecycle, from concept to implementation, demonstrating strong project management skills and a comprehensive understanding of both backend (Python) and frontend (Tkinter) development aspects.

### Project 2

#### ECOMMERCE

- Spearheaded the end-to-end development of a robust e-commerce platform using the Django framework, showcasing proficiency in both frontend (HTML, CSS) and backend (Python) technologies.
- Implemented and optimized MySQL database integration to efficiently handle product catalogs, user profiles, and transactional data, ensuring seamless and secure online shopping experiences.
- Developed a secure user authentication system, implementing role-based access controls for enhanced security and personalized user experiences, showcasing a deep understanding of Django's authentication mechanisms.
- Designed and implemented a responsive and intuitive user interface, enhancing the overall user experience through effective use of HTML and CSS, and ensuring a seamless transition between desktop and mobile devices.
- Integrated a secure payment gateway (e.g., Stripe or PayPal) to facilitate smooth and secure transactions, demonstrating the ability to incorporate third-party services into the application and ensuring compliance with industry standards for financial transactions.
