

SUMMARY

Recent graduate with a Bachelor's degree in Information Technology (2024), showcasing academic excellence with a CGPA of 8.34. Eager and motivated fresher entering the field of web development, equipped with practical experience gained during internships. Proficient in technologies such as HTML, CSS, and JavaScript, with a solid foundation in Java programming. Demonstrated capability in collaborative team environments and a quick learner with a commitment to staying current with emerging technologies. Seeking opportunities to apply and further develop skills in web development.

EDUCATION

Hindusthan College of Engineering and Technology

Bachelor's Degree in Information Technology
2020 – 2024
CGPA : 8.34

Eden Gardens Mt. Hr. Sec. School

HSC
2019 – 2020
Percentage : 65%

Eden Gardens Mt. Hr. Sec. School

SSLC
2017 – 2018
Percentage : 77.2%

SKILLS

Technologies:

- HTML
- CSS
- JavaScript

Programming Languages:

- Java

Version Control System:

- Git / GitHub

Framework:

- Flutter

CERTIFICATIONS

- Java Fundamental in Infosys Springboard
- ICT Academy Learnathon 2021 and 2022
- NPTEL - Cloud Computing

PROFESSIONAL EXPERIENCE

Project Intern

Nitroware Technologies Pvt Ltd | January 2023 – February 2023

- Collaborated within a four-person team to develop a website using the Django framework in Python.
- Implemented the Django framework, emphasizing the MVC (Model-View-Controller) architectural pattern for organized code development.
- Employed an effective MVC controller to manage data flow between the model, view, and controller components for enhanced code structure and maintainability.

Project Intern

Accent Techno Soft | December 2021 – January 2021

- Served as a project intern, gaining practical experience in web development and various web technologies.
- Developed a hands-on understanding of HTML and CSS during the internship.
- Contributed to the creation of a simple user interface (UI) using HTML and CSS.
- Applied acquired skills to enhance knowledge and proficiency in web development practices.

PROJECTS

Software Developer

Auction Management System Using Flutter

- Created cross-platform auction management system with Flutter for iOS and Android.
- Designed responsive UI using Flutter's widget-based architecture for user-friendly experience.
- Enabled real-time bidding and dynamic auction updates with Flutter's reactive framework.
- Implemented secure authentication to ensure confidentiality in auction management.
