## SUMMARY

---

React JS developer with 1.2 years of **experience in building and maintaining web applications**.

Proven ability to use **React JS** to create responsive and user-friendly interfaces. Expertise in

**React concepts**, such as components, state management, routing, etc.

Looking for work as a web developer. Also, pursuing exciting and challenging positions that fit my background in the workplace and make good use of my technical and developmental skills.

## TECHNICAL SKILLS

---

1. **Key Skills:** **React JS**, TypeScript, JavaScript, reactQuery, jQuery, HTML, CSS, ant design, Highcharts, Jest, Git, Lodash.
2. **Platforms:** Visual Studio Code, Anaconda, Jupyter Notebook, PyCharm
3. **Interpersonal Skills:** Incident Resolution, Team Leadership, Presentation Skills, Training, Problem Solving

## PROJECTS

---

### API Logs – Chrome Extension

Developed a Chrome browser extension to facilitate real-time monitoring of web request URLs before they are sent by the browser.

### Shopping Cart

After logging into the e-commerce Shopping Cart Website, we can add multiple products as per our choice and make it available in the cart.

You can modify your products in the cart page like add/subtract quantity of product and remove product from the cart.

On top of the cart page, payment method module is in development phase.

### Instagram Clone

Currently Developing a social media web application replicating Instagram's core features, including user sign up, sign in, posting functionality, and commenting on existing posts.

### Diamonds Direct

Developed E-commerce website inspired by the Experro Product with **React JS**.

Worked on various pages including home page popup, Sign In, Sign Up, Cart, etc.

## Fascinating diamonds

E-commerce website based on the Experro Product with **React JS**.

Contributed to home page, sliders, and cart page. Implemented a product-detail page with complex filters, etc.
