To obtain new challenges and responsible position that will allow me to perform better and to utilize my technical skills and willingness to learn in making an organization successful.

Experience

● iOS Developer (SDE) | Square Infosoft, Surat

04/2023 - Present

- Designing and developing applications for iPhone and iPad platforms using Swift, ensuring high-quality code.
- Analyzing client requirements and comprehending execution flow from Figma files for fostering a seamless user experience.
- Reviewing and implementing required APIs, rigorously testing them on Swagger to ensure robust functionality and integration within the app ecosystem.
- Collaborating closely with clients to share builds via TestFlight, collecting and addressing feedback to refine and enhance app performance and features, and showcasing a dedication to client satisfaction.
- Testing and debugging applications throughout the development process to deliver polished, error-free applications, prioritizing a smooth and intuitive user experience.

● Web Development Intern | Webakruti Software Company, Nagpur

05/2019 - 07/2019

- In this internship, I worked with Photoshop and a responsive website. I have worked as a front end and back end Web development intern.
- I got to improve my leadership skills and learn how to work in a team while working on the project
- Collaborated with clients to target issues and uncover methods that would increase operational efficiency.
