

## Bushara Siddiqui

### iOS Developer

1+ Years of experience

## PROFILE

Highly skilled iOS Developer with 1+ years of experience in iOS application development using Swift. Currently in the process of learning and integrating BLE into existing and new projects. Have an exposure of working on varied scale of projects starting from start-up products to applications with millions of users.

Skilled in creating robust and user-friendly solutions for diverse domains, including IoT, real-time chat, video streaming, Bluetooth devices, and E-commerce applications.

## COMPETENCES

### Products & Services

iOS Applications, IoT, Bluetooth, Chat, E-Commerce, RTMP file streaming, Payment gateways, In App Purchase, Push Notifications.

### Standard & Methods

MVC, MVP, MVVM, Clean Architecture, Unit Testing, multi-threading, GCD, NSOperation, Core Data Concurrency, Security

### Technologies, Software & Tools

Swift, XCode, XCode Cloud, Bluetooth, Multipeer Connectivity, Source tree, Confluence, Jira

### Security Tools

SHA, AES, securing strings in IPA

### Frameworks

Cocoa, UIKit, Core Data, Unity, Multipeer Connectivity, Apple Push Notification, Address, Audio, Video, AVFoundation, Core Bluetooth (Swift), RESTful API

### Third party APIs

Alamofire, AFNetworking, Firebase Cloud Messaging (FCM), PayPal SDK, Google Analytics, Firebase, Logentries, Facebook SDK, Google sign

### Repositories

GitHub, Bitbucket, Gitlab

### Databases

SQLite, Realm

### Languages

Swift, Java (basic), Core Java, C

## EXPERIENCES

---

### **iOS Developer**

**Company:** Intigate Technology

**Project:** ARCA, Hadini, Suffix, Social Pay, News Letter

Period: 07/2023 – till date

**Individual Contribution:** iOS app development, architecture, code reviews, unit test cases, security, optimizing performance, adherence to coding standards, Jenkins job creation and maintenance, feasibility analysis, grooming new features, collaborating with product owners, designers, and other stakeholders to refine and prioritize requirements

**Technologies/Methods:** XCode, Swift , Core Data, multi-threading, GCD, NSOperation, Core Data Concurrency , Payment gateways,MVP,Protocol Oriented Programming.

### **Software Engineer**

**Company:** KaHa Technology Pvt Ltd

**Projects:** BoatCrest (Smart Watch)

Period: 07/2022 – 05/2023

**Individual Contribution:** creating, enhancing, and maintaining iOS applications, fixing bugs, and optimizing performance, code reviews, unit test Cases, feasibility analysis, grooming new features, effort estimation.

**Technologies/Methods:** XCode, Real time chat, Core Data, multi-threading, GCD, NSOperation, Core Data Concurrency, Apple Content Hosting, Apple Push Notification,BLE, Payment gateways.

## EDUCATION

---

**Bachelor of Technology - Information Technology**

**Graduation date:** 2022

**University:** Buddha Institute of Technology, Gorakhpur, India

## TRAININGS

---

**Core Java Training** - LTBP, India

**C Programming** - Buddha Institute of Technology, Gorakhpur, India

**Workshop on Android Application Development** - IIT BHU, India

## LANGUAGES

---

**English** – Fluent

**Hindi** – Fluent
