

Resume

Mr. Sunny Gill

Email: - gills060@gmail.com

Mob.no: - +91 7588654953 / 9529228936

Objective:

I am an enthusiastic and result-driven software developer with over 3 years of experience, specializing in Core PHP, Node.js, NextJs, and CodeIgniter. I am seeking a challenging role where I can leverage my skills and capabilities through sincere dedication and hard work to achieve a successful and rewarding career.

Education:

- Bachelor of Engineering, Nagpur University (2019)

Skills:

- **PHP:** Proficient in creating CRM, Real-estate Admin Panel, and billing software using MySQL database.
- **NodeJS:** Experienced in developing Rest APIs using Express JS for payment gateways with third-party payment solutions like Razorpay. Also, created APIs for matrimonial websites and online shopping applications.
- **CodeIgniter:** Skilled in developing distributed systems to manage employee details and assign accessories.
- **Next.js:** Completed comprehensive self-training, applying expertise in designing and developing an efficient admin panel. Proficient in user-friendly interface creation, advanced feature implementation, and seamless integration with a well-structured backend. Demonstrating continuous learning and staying updated with the latest advancements in Next.js development through online resources and YouTube tutorials.
- **MySQL:** Familiar with using MySQL databases for storing data.

Experience:

- **Software Engineer: Gaffis Technology Pvt Ltd - (June 2023 - August 2023)**
 - Developed and implemented Admin CRM solutions using Core PHP and CodeIgniter.
 - Proficient in handling software projects and delivering results in a timely manner.
- **Software Engineer: Ulis Technology Pvt Ltd - (May 2022 - June 2023)**
 - Expertise in Full Stack Web Development, with a focus on payment gateway APIs using Node.js and CodeIgniter 3 for matrimonial websites.
 - Strong problem-solving skills and a collaborative approach to achieving project goals.
- **PHP full Stack Developer: Brainz1Techub – (July 2021 – May 2022)**
 - Designed and developed robust software solutions, specializing in MLM, billing, and inventory management systems.
 - Played a pivotal role in ensuring efficient sales tracking, commission management, and downline tracking within the MLM system.

- Created a comprehensive billing system that streamlined invoicing.
- **Trainee software developer: Percept Infosystem** -(April 2020 – May 2021)
 - Completed an internship as a PHP developer and trained as a Software Engineer.
 - Gained practical experience in PHP development and software engineering.

Projects:

- **Payment Gateway:**
Utilized NodeJS, Express JS, and MySQL to create a REST API for payment gateway using Razorpay payment solution.
- **Matrimonial Website:**
Developed a Matrimonial website using NodeJS and CodeIgniter to manage data and payments
- **Real Estate:**
Created CRM using Core PHP and MySQL Database to manage plots and customer details, mentioning plot rates and availability.
- **ERP:**
Developed an application for company employees to manage their details. HR had the authority to create new employees, and credentials were sent by email. Employees could manage their leaves and exit using the application.
- **Admin Panel:**
Managed all Data with CRUD operations using Core PHP and CodeIgniter.

DECLARATION:

I hereby declare that the information provided above by me is true to the best of my knowledge & belief.
