## EXPERIENCE

### ValueCoders , Noida — iOS App Developer

August 2022 - December, 2023

As iOS Developer at Vinove, made significant contributions to new projects and ongoing initiatives. I built various new features in existing projects based on client feedback, showcasing my expertise in UIKit, Cocoa Touch, Apple Maps, CocoaPods and MVVM. Additionally, I had to make a patch for an existing 3rd party library for its custom use.

### ValueCoders , Noida — Junior Associate Software Developer

January 2022 - July 2022

As a Junior Associate Software Developer at Vinove Software and Services, I gained hands-on experience in Swift programming and contributed to the development of user-friendly iOS applications. Collaborated with a team, conducted unit testing, and implemented enhancements based on user feedback. Developed proficiency in debugging and troubleshooting to ensure high-quality code and optimal performance.

## PROJECTS

### Bonhams Expenses App (07/2022 - 11/2023)

- I built various new features from scratch in existing projects based on client feedback, showcasing my expertise in UIKit, Cocoa Touch, Apple Maps, CocoaPods and MVVM.
- Developed custom UI components and integrated them with backend along with day to day responsibility and scrum.
- Contributed to the UI team for better User Experience.

### Dubai Police Chat application (07/2023 - 8/2023)

- Dubai Police Chat application came with a request to add a new feature that would enable the user to download the media onto their phone and to preSelect video Streaming resolution from Admin portal.
- API integration for different permissions and then unit testing for the same.
- Developed proficiency in debugging and troubleshooting to ensure high-quality code and optimal performance.

### Queen's Beasts (02/2023 - 03/2023)

- Client came with an issue regarding release of the app, resolved it by updating the Xcode version and changes that came along the way in the Pods that were being used.
- Successfully uploaded the app and got it approved by the apple.
- Corrected the Git structure for future use.

## SKILLS

Swift , Cocoa Touch, CocoaPods, UIKit, StroyBoard, Xcode, Autolayout, Debugging, MVVM, Firebase Integration, Apple Push Notification, Release Management(App Store), Data Structure, CoreData, Git, SourceTree, API Integration(JSON), Cache Storage.

## EDUCATION

### ABES Engineering College, Ghaziabad

B.Tech in Information Technology  
CGPA - 8.04/10.0  
2018-2022

### Woodrow Senior Secondary School, Bareilly

CBSE Board (XII)  
Percentage: 85%  
Year 2017

## LANGUAGES

English, Hindi
