HackerRank | Problem-Solving (02/2023)

Shows problem-solving skills ([Link of the Above Certificate](#))

PERSONAL PROJECTS

Healthcare System (02/2023 - 03/2023)

▣ Healthcare System is a complete solution that can be deployed and customized by any Hospital Management System. It is based on the SMS API Feature which will produce Custom OTP for Mobile Verification and SMS for Appointment Confirmation. We covered a wide range of topics related to Core JAVA(JSE) such as Multithreading, JDBC, API Integration, OTP Verification, and Password Encryption. We implement these topics in our Project. ([Project Link](#))

Quiz Application (05/2023 - 06/2023)

▣ It is our Desktop-based Application with the help of JAVA Swing. It is part of the Core JAVA we used in that AWT. This is the Quiz Game in which we log in and start the game. After that, you will find some rules in this And then the question will show which is based on the Computer. ([Project Link](#))

Tic-Tac-Teo (12/2023 - 12/2023)

▣ Tic-Tac-Teo is traditionally played on a 3*3 grid. Players take turns placing a mark in one of the cells of the grid. The goal of the game is for the player to position their marks so that they make a continuous line of three cells vertically, horizontally, or diagonally.
▣ In which I used the Web technologies like HTML, CSS, and JS. ([Project Link](#))
