## EDUCATION

### B.Tech (Computer Science Engineering) JB Institute of Technology

08/2017 - 01/2022

Dehradun, India

## WORK EXPERIENCE

### Full Stack Developer PrepforTech

07/2022 - 12/2022

Remote

#### Achievements/Tasks

- Designed and developed user interfaces and website components using React.js to ensure a seamless and userfriendly experience.
- Implemented server-side logic utilizing Node.js and Express.js, optimizing code for superior performance and efficiency.
- Managed databases with MongoDB, MySQL focusing on data integrity and scalability for high-traffic applications.
- Conducted comprehensive code testing, identified and resolved bugs, resulting in a significant enhancement of software quality.
- Collaborated closely with designers to align UI/UX with application requirements, thereby improving overall aesthetics and usability.
- Developed and maintained RESTful APIs to facilitate efficient communication between frontend and backend systems, ensuring smooth data flow.

## CERTIFICATIONS

### Full Stack Developer

I completed 6 months of internship, excelling in various aspects of web development.

## SKILLS

Programming Languages: JavaScript, Java, Python

Frontend: React.js, HTML, CSS

Database: MongoDB, MySQL

Version Control: Git / GitHub

Backend: Node.js, Express.js, Spring Boot

## PERSONAL PROJECTS

### Blogging Platform

- Developed a responsive blogging platform with user registration, JWT security, and features like blog creation, category-based filtering, and author-based exploration.
- **Tech Stack:** Html, CSS, JavaScript, MongoDB, Express.js, React.js, Node.js, Redux, Multer and JsonWebToken

### Netflix Clone

- Created a Netflix clone utilizing React.js on the client-side and Java to create a RESTful API. Implemented user registration, login, and JWT authentication for enhanced security. Users can explore shows by category and cast.
- **Tech Stack:** React.js, HTML, CSS, JavaScript, SQL, Java, Spring Boot, AWS
