## SUMMARY

As a motivated and confident recent graduate, I bring a strong commitment to problem-solving and a passion for continuous self-improvement. My educational background and natural drive empower me to face challenges head-on and find creative solutions. I'm enthusiastic about contributing my problem-solving skills to make a positive impact in the Software Engineering field.

## SKILLS

**Languages:** Java, SQL, JavaScript, Kotlin, OOPS, Jdbc, Hibernate, Springboot, Html, Css, Sdlc, Android-development.

## EXPERIENCE

### • Intern, SheArise

(Dec 2022 - Mar 2023)

- Gained hands-on experience in various Java concepts, including:
  - \* Object-Oriented Programming (OOPs)
  - \* JDBC (Java Database Connectivity)
  - \* Hibernate (Object-Relational Mapping)
  - \* Spring Boot (Java framework for web applications)
  - \* Exception Handling

### • Intern, Bharat.

(July 2023 - Aug 2023)

- \* Developed an Android application for online daily groceries shopping.
- \* Utilized Kotlin as the primary programming language for app development.
- \* Implemented various features, such as product browsing, shopping cart, user accounts, and secure payment options.

## EDUCATION

2019 - 2023	<b>IIMT College of Engineering, Greater Noida</b> Percentage: 75%	<b>B.Tech in Computer Science and Engineering</b>
2018 - 2019	<b>Adarsh Vidya Peeth Inter College, Kuthond</b> Percentage: 76%	<b>12th Grade</b>
2016 - 2017	<b>Adarsh Vidya Peeth Inter College, Kuthond</b> Percentage: 77%	<b>10th Grade</b>

## PROJECTS

### - Filmpire |

(View Project)

- \* Filmpire is a cutting-edge web application that brings together the best features of Netflix and IMDb.
- \* Crafted using advanced JavaScript tools like React.js, Redux, Material UI, and Alan AI, Filmpire provides an immersive movie discovery experience.

### - Library Management System | Java , Hibernate | (View Project)

- \* Using Hibernate is a java framework that simplifies the development of java application to interact with database. it manages and store book information according to student's need.
- \* It also features a search bar.

### - Voice Clone | NLP, JAVASCRIPT , HTML, CSS, Bootstrap | (Research Project)

- \* Text to speech conversion software project is windows based application that reads a text file to the user. The software reads a text file and associated pronunciation in its temporary database.
- \* The program then reads an entire word to the user ...

## ACHIEVEMENTS

- Certification of Core java . -View Certification
- Certification of Android Development. -View Certification .
- Certification of SQL -View Certification .
- Runner-up, College Competition for Digital Locking System Runner Idea Presentation.
