EDUCATION

Sinhgad Institute of Technology and Science , Pune

B.E. in Computer Science

Graduation, July 2023

- **Concentrations:** Intelligence and Modeling/Simulations
- **GPA:** 7.37/10.00, *Dean's List*
- **Related Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Combinatorics, Machine Learning, Artificial Intelligence, Object-Oriented Programming, Statistics & Applications

EXPERIENCE

Jio platform limited

Navi Mumbai, Maharashtra

Graduate Engineer Trainee

July 2023 – Till date

- Created and maintained enterprise mobility iOS application for the regional team
- Developed and maintained enterprise mobility iOS applications using Swift and SwiftUI
- Implemented MVVM architecture for a scalable and maintainable codebase.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Proficient in Xcode and version control systems.

CERTIFICATIONS

1. [Introduction to iOS App Development with Swift 5](#) | Coursera
2. [Tables, Data & Networking in iOS](#) | Coursera
3. [Introduction to iOS Mobile Application Development](#) | Coursera
4. [Tables, Data & Networking in iOS](#) | Coursera
5. [App Design and Development for iOS](#) | Coursera

PROJECTS

Final Year Project

- Sign Language Recognition using TensorFlow | [feb 2023 – June 2023]
- Implemented a sign language recognition system using TensorFlow, achieving accuracy of 90-97%
- Led a collaborative team effort, demonstrating effective teamwork and communication skills.
- Collaborated with a team of [mention number of team members] to design and develop the project, demonstrating effective teamwork and communication skills.
- Utilized TensorFlow for enhanced accuracy and real-time recognition.

SKILLS

- Programming Languages: Swift, Objective-C
- iOS Development: SwiftUI, UIKit, Core Data
- Machine Learning: TensorFlow, scikit-learn, PyTorch
- Frameworks: Kaggle, Core ML (for iOS)
- Libraries: NumPy, Pandas, Matplotlib, Seaborn (for data analysis and visualization)
- Architecture: MVVM
- Tools: Xcode, Git
- Software Development Methodologies: Agile, Scrum
- Version Control: Git
- Team Collaboration: Proven ability to work effectively in collaborative environments.
