---

## Projects

---

### Payroll System

- A payroll management system is a software that is used to manage all your employee's financial records in a simple and automated fashion.
- I have created this project to understand more about how java works as well as to study and practice concepts of OOPs.

### Android Security For Stolen Or Misplaced Phone

- The objective of project is to develop for giving smartphone a security from being stolen.
- If the phone is stolen and user want to secure from unauthorized person so that user can perform some operations from an alternate mobile number.

### Evm Less Voating System

- The evm less voating system is made for the people of country residing small villages and wants to vote their representative.
- This project uses authentication technique for user security.

---
