## SUMMARY

As a dedicated MCA student. I'm passionate about learning the latest advancements in technology. Through internships and extracurricular activities, I've gained experience and developed leadership skills. I'm eager to leverage my skills and knowledge to contribute to a dynamic organization.

---

## EXPERIENCE

### CTO

#### studifysuccess

April 2022 - Present, New Delhi

- Pioneered the end-to-end development of Studifysuccess, an online learning platform catering to students in grades 6-12, providing a comprehensive array of educational resources and courses.
- Demonstrated technical expertise in web development technologies, including HTML, CSS, JS, and PHP, to architect, build, and maintain the platform's website. This ensured a seamless and user-friendly experience for both students and educators.
- Led the development of a mobile application using React Native, significantly enhancing accessibility for students and extending the platform's reach to a broader audience.
- Played a pivotal role in the platform's design, emphasizing user-centric features to empower students in achieving their academic goals effectively. This involved collaborating closely with UX/UI teams and educators to create an intuitive and engaging learning environment.

### Full stack web developer

#### Devtown

June 2022 - November 2022, New Delhi

- Embarked on a transformative journey at DevTown, where I honed my skills as a Full Stack Developer through comprehensive training and hands-on experiences.
  - Acquired proficiency in full stack development, gaining expertise in technologies such as Express, Node.js, Docker, and AWS.
  - Specialized in creating robust APIs using Express and Node.js, contributing to the development of scalable and efficient backend solutions for various applications.
  - Leveraged Docker for containerization, ensuring consistent and reliable deployment across different environments.
  - Utilized Amazon S3 bucket and AWS services for hosting applications, showcasing a deep understanding of cloud infrastructure and deployment strategies.
  - Collaborated with a diverse team of developers, designers, and project managers, fostering an environment of continuous learning and skill enhancement.
- 

## PROJECTS

### studifysuccess

<https://studifysuccess.com> • April 2022 - Present

- Spearheaded the development of an online learning platform catering to students in grades 6-12, offering a diverse range of educational resources and courses.
- Demonstrated proficiency in web development technologies, including HTML, CSS, JS, and PHP, to build and maintain the website, ensuring a seamless user experience.
- Led the development of the mobile app using React Native, enhancing accessibility for students and expanding the platform's reach.
- Played a key role in the platform's design, focusing on user-centric features to aid students in achieving their academic goals effectively.

### DevConnect

<https://github.com/ankitbudhori23/DevConnect> • September 2022 -October 2022

- Coordinated a team of 3 developers in the successful creation of DevConnect, a cutting-edge social media platform designed specifically for developers to connect and collaborate on projects.

- Leveraged expertise in ReactJS, NodeJS, Express.js, MongoDB, and Redux to develop key features and functionalities, ensuring a seamless user experience.
- Implemented innovative solutions that fostered effective communication and collaboration among developers, contributing to the platform's unique value proposition.

### **FriendCircle**

<https://github.com/ankitbudhori23/FrndCircle> • July 2021 - August 2021

- Led the development of FrndCircle, a robust social media application akin to Facebook, connecting users and fostering online interactions.
- Utilized React for the frontend, creating a dynamic and responsive user interface that enhances the overall user experience.
- Leveraged Node.js and Express to build a scalable and efficient backend, ensuring seamless communication between the frontend and the database.
- Integrated Socket.io for real-time messaging functionality, providing users with a seamless and interactive communication experience.
- Prioritized security by implementing JWT (JSON Web Tokens), enhancing the overall safety and privacy of user data.

### **Spaces online collaboration tool**

<https://github.com/ankitbudhori23/Spaces> • February 2023 - April 2023

- Spearheaded the development of Spaces, a sophisticated online collaboration tool designed as a project management solution similar to Jira.
- Implemented React for the frontend and Utilized Node.js and Express to architect a robust backend,
- Integrated MongoDB as the database solution, optimizing data storage and retrieval processes to ensure scalability and performance.
- Facilitated team collaboration by enabling team leaders to effortlessly add and manage team members within each space, fostering streamlined communication and task coordination.

### **MusicFlow an Online Music App**

<https://github.com/ankitbudhori23/MusicFlow> • September 2023 - December 2023

- Conceptualized and led the development of MusicFlow, an engaging online music app, leveraging React Native for a seamless and responsive cross-platform user experience.
- Engineered a robust backend using Node.js and Express, integrating MongoDB as the database solution, ensuring efficient data storage and retrieval.
- Implemented a user-friendly search functionality, enabling users to discover and explore a vast catalog of songs effortlessly.
- Introduced features allowing users to personalize their experience by adding songs to favorites, fostering user engagement and customization.
- Innovatively designed and implemented playlist creation functionality, empowering users to curate their music collections based on personal preferences.

---

## **EDUCATION**

### **Master of Computer Application (MCA)**

Bharati Vidyapeeth's Institute of Computer Applications and Management • New Delhi, Delhi, India • 2022-24 • 70%

### **Bachelors of Computer Application (BCA)**

Institute of Innovation in Technology and Management • New Delhi, Delhi, India • 2019-22 • 78%

---

## **SKILLS**

**Front End:** HTML, CSS, Tailwind, Bootstrap, React-JS, Next-JS

**Backend:** Node JS, Express JS, PHP

**Database:** MongoDB, MySQL

**Programming Languages:** C, C++, Python, JAVA, JavaScript
