PROFILE

Versatile Programmer Proficient in Java, JavaScript, C, Angular, React, Hibernate, Spring, Spring Boot, and Database Technologies (MySQL, SQL, MongoDB)

EDUCATION

B.E in Computer Science

P.R.Pote College of Engineering and Management
CGPA: 7.8/10

02/2021 – 07/2023
Amravati, India

Diploma in Computer Engineering

Government Polytechnic Amravati
77.75%

07/2018 – 10/2020
Amravati, India

SKILLS

Programming Languages

Java 8, JavaScript, C

Web Development

Angular, React, Html, CSS, Bootstrap

Database Management

MySQL, SQL, MongoDB

PROJECTS

Mess Finder System

Developed and implemented a Mess Finder System to simplify and optimize the process of locating and selecting mess facilities for users in a campus or locality.
Utilized Java 8 for backend development, implementing robust and scalable server-side functionalities.
Designed and crafted the user interface using HTML, CSS, and JavaScript, ensuring an intuitive and seamless user experience.

Blood Bank Locator System

Designed and implemented a comprehensive Blood Bank Locator System aimed at streamlining the process of blood donation and retrieval.
Implemented a user-friendly and responsive interface using modern UI/UX design principles.

Student Management System

Developed a dynamic Student Management System using Angular, Bootstrap, and Firebase, aimed at streamlining administrative tasks and enhancing the overall efficiency of academic record-keeping. The system facilitates basic CRUD (Create, Read, Update, Delete) operations, providing a user-friendly interface for seamless management of student data.
