WORK EXPERIENCE

Digilateral Solutions, Mumbai iOS Developer

Sep'23– Present

Key Result Areas:

- Delivered UI & Sompraz Quiz Application for iPad.
- Design and developed animation with several features of entire quiz application.
- Ensure entire Quiz application is data centric and supports all features offline.
- Featured remote device configuration by consuming RESTful web services to pull down store specific app settings.
- Followed Apple's design principles and interface guidelines
- Ensuring the code generated is bug free.
- Testing applications in order to check if the orientation and all the devices are supported.
- Ensured to deploy the application within timeline of project.
- Identify and correct bottlenecks

NilleeGames & Future Technology, Mumbai Junior iOS Developer

Dec'22 – Sep'23

Key Result Areas:

- Collaborating with a team of developers to design and develop innovative iOS applications, ensuring seamless integration with back-end systems
- Conducting comprehensive testing and debugging processes to guarantee the quality and functionality of applications, while adhering to industry standards
- Implementing user interface designs and enhancing user experience through the creation of intuitive and visually appealing interfaces
- Continuously staying updated with the latest trends and technologies in iOS development to improve skills and knowledge, ensuring optimal performance
- Cooperating with cross-functional teams to guarantee seamless integration of applications with back-end systems, fostering efficient communication

Project: MindWars

Key Result Areas:

- Created Calendar & Date Display for current affairs in the application
- Validated entry of 10-digit Mobile number in login page and 6-digit pin code in school form
- Deleted account integration & Payment Gateway Integration
- Inserted show & hide skip button in NSC

ACADEMIC PROJECTS

Project 1: Flickagram

Project 2: Movie App

Project 3: Xylophone App

Project 4: Egg Timer App

Key Result Areas:

- Included list of images in Table View from API
- Displayed the images on other screens when tapped on a particular picture
- Collaborated with designers and refined functionality as per iOS Human Interface Guidelines
- Worked in a safe scrum/agile environment with daily standups to keep track of team progress, led by our scrum master and other changes too
