EDUCATION

BTech in Electronics & Communication

BP Poddar Institute Of Management & Technology

07/2019 - 07/2023

8.68 CGPA

PROJECTS

VOTRR (2023)

- This voting application uses UIKit(Programmatically) and Firebase, where Users can sign in using Email/ Google/Facebook/SMS verification and vote. That vote will be stored internally using persistence. Along with that, there are different tabs: Home,Upcoming Recent and Profile.

Moviee (2022)

- In this app, I have used TMDB Movie API to fetch all the data of trending movies, TVs etc of recent times and have shown it through different tabs similar to Netflix using Swift UIKit programmatically,and also added persistence using CoreData

PitchPerfect App(2022)

- This is an audio/voice recording and pitch-changing app for iOS users with lots of Audio effects like reverb, echo/delay, chipmunk, fast. Its made using UIKit and AVFoundation.

Trivial Pursuit (2023)

- This is a trivia app made using SwiftUI which requires an HTTP request to get the questions and answers using async await, and I coded bit of logic to take care of all the possible outcomes of the game

WORK EXPERIENCE

Software Development Trainee(iOS)

Antino

07/2023 - 11/2023

Gurugram

Achievements/Tasks

- Developed applications for iOS devices
- Worked on bug fixes
- built reusable codes and components

Front-end Developer intern

eduAgo Academy

11/2020 - 02/2021

Remote

They provide personalized teaching of important programming skills through LIVE classes with experienced mentors and freshly designed content.

Achievements/Tasks

- developed new user-facing features on their website
- determined the structure and design of web pages
- built reusable codes, optimized page loading times

SKILLS

Swift

UIKit

SwiftUI

Restful API

CoreData

Core Animation

Cocoapods

Firebase

Unit Testing

Object Oriented Programming

Data Structures & Algorithms

C

C++

HTML

CSS

Git

JIRA

SOFT SKILLS

Problem Solving

I like **challenges**, it can be programming challenges or life. Throughout my iOS journey, due to lack of resources, have faced a lot of challenges, but **overcame them** and going forward.

Patience

Throughout my iOS journey, I have learned this skill the most, as good things take time and I always believe in my **process**, and that gives me the **confidence** of staying **patient**.

Communication

This skill helped me a lot in getting **connected** with good people in this industry. I have **improved** so much because of it.

Creativity

I always have that **desire of doing things differently** and that's why I am the **only one in my college** who has learned iOS and I am proud of it.

ACHIEVEMENTS

Swift Level 1 Qualified From Cambridge Certification Authority (2022)

Swift Level 2 Qualified From Cambridge Certification Authority (2023)

100 Days of Swift from Hacking With Swift
