TECHNICAL KNOWLEDGE & SKILLS

- Strong Knowledge on **Html** to design the webpage.
- Good Knowledge on **CSS**
- Knowledge on Core **JavaScript**.
- Good Knowledge on basic **SQL**, **SQL Queries** and **Database**.
- Basic knowledge on **Python**.

PROJECTS

- **Ecommerce Webpage design.**

Designed an Ecommerce webpage using HTML and CSS. I have mainly used CSS Positions, Layout and Flex Model. Along with that Anchor tags are used.

- **Tax Calculator using HTML, CSS & JavaScript.**

Using HTML and CSS I have designed and created the UI and by using JavaScript I have given the functionality. When we enter our salary and what is the tax. Then it will give how much amount is going to cut from our salary and what is remaining amount. By using this we can easily calculate the tax amount.

Stopwatch using HTML, CSS & JavaScript

I have designed a stopwatch using HTML, CSS & JavaScript. It has three buttons Start, Stop and Reset. When we click on the start the watch will start and when we click on stop button the watch will stop. By clicking in the reset button, we can reset the watch.

Major Project

- **Energy Saving System for room using Sensors. (Team Lead)**

Batch of 3 people.

By using this project, we can save the energy. When a person enters into the room the loads (lights & fans) will turn on automatically, and when a person leaves the room, the loads turn off automatically. By which we can save the energy from going to waste.
