- M.S Office.

### CERTIFICATIONS:

- Participation in Java Full Stack by Skill AP.
- Participation in Artificial Intelligence, Block-Chain, Cyber security and Data science (ABCD 2023) National Conference, Presenting On the Topic of “ A Multi Optimization scheme for job Scheduling cloud data centers”.

## WORK EXPERIENCE:

**IT CONSULTANT ( ITC INFOTECH) (April 28,2022 TO January 4,2023).**

- Successfully addressed and resolved support tickets with a high level of efficiency, averaging closure of 20-30 issues daily.
- Conducted troubleshooting for a wide range of IT-related issues, including hardware, software, network, peripherals, and VPN, supporting hospitals internationally.
- Served as the first point of contact for end-users, delivering professional, timely, and accurate support.
- Delivered first-rate, professional support as the initial point of contact for end-users, emphasizing timeliness and accuracy in issue resolution and problem-solving skills.

## PROJECT:

### MAJOR PROJECT

**A Multi objective optimization scheme for job scheduling cloud data Centers:**

- The Ultimate goal of the proposed work is to design a comprehensive work load classification
- job scheduling and virtual machine placement architecture for cloud DC's powered by RES and power grids.

### Online Voting System:

- The Online Voting System can speed-up election results and lower the cost of conducting an election by significantly reducing the number of people required to operate a polling place and tabulate results.
- A primary concern with E-Online Voting system however it can store votes so they can be recounted if required.

## KEY STRENGTH:

- Hard Work.
- Time management.
- Ability to work under pressure.
- Leadership Qualities & Good Communication Skills.
