2018/07 – 2022/07 Faridabad, India	<b>B.Tech-Computer Science</b> <i>Manav Rachna International Institute of Research and Studies</i>
2017/04 – 2018/05 Palwal, India	<b>Class XII</b> <i>KCM Public School</i>

## Skills

---

Core Java/DSA/OOPS	Kafka
JSP & Servlet	Spring Boot
MySql	HTML/CSS/Bootstrap
Javascript/JQuery	React
JDBC	AWS

## Projects

---

2023/09 – 2023/10	<b>MV Music Player</b> <a href="#">🔗</a> Created a music player using pure HTML, CSS, and JavaScript, with functions such as Play, Pause, Forward, Backward, and speana. Users can select any song from the default library and listen to it.
2022/05 – 2022/07	<b>Malaysia BWC (Body Worn Camera)</b> This project is madein association with Malaysia Government to ensuresafety of Malaysia Police. This Body Worn Camera is fitted on the cop's clothes and whenever its turned on, the live feed is shown on the monitors of the command center and automatically gets stored on cloud. This software will help with police and civilianssafety.
2022/03 – 2022/04	<b>Restful API</b> In this project our team built an Employee Data Manager with the help of AWS Lambda, DynamoDB and API Gateway. The Employee's data would get saved on DynamoDB without writing any code for API. It would make it serverless using AWS Lambda
