PROFILE

Strong in design and integration with intuitive problem-solving skills. Proficient in JAVA, C++, OOPs and SQL. Passionate about implementing and launching new projects. Ability to translate business requirements into technical solution.

PROJECTS

Airline Reservation System

: Airline reservation systems (ARS) are systems that allow an airline to sell their inventory (seats). It contains information on schedules and fares and contains a database of reservations (or passenger name records).

- Build airline reservation system using swing and java framework.
- It give basic information about the Flight and Ticket booking and It also use add User and add Admin details.

Tools : Netbeans, MySQL Workbench. **Technologies :** java, java swing and java framwork. **Database :** MySQL

Brick Breaker Game

:It's a GUI-based project used with the swing library to organize all the elements that work under the Brick Breaker game.

- Using data structures like 2D arrays, handling Classes and Object creations.
- Use the left, and right keys to move the paddle left and right
- The current score is updated every time the ball hits the brick and displayed. Game over if the ball does not hit the paddle and goes out of the border. The player wins when all bricks are broken.

Tools : Netbeans. **Technologies :** Java, Java swing and AWT

EDUCATION

B.tech (CSE), Walchand college of Engineering, Sangli	2018 – 2022
Total CGPA - 6.5	

XII, Vidyamandir Highschool and jr. college, Uran-Islampur	2016 – 2017
Percentage 65.38 %	

X, Yashwant Highschool Uran-Islampur	2014 – 2015
Percentage - 76%	

COURSES

Full Stack Java Development, Acciojob

- > Developed problem solving skill in Data Structure and Algorithm.
- > Assignment are done using various data structure like Array, String, LinkedList, Stack, Queue, Tree, Hashmap, Graph.
- > Practiced DBMS, SQL for project to access the database and solved more than 400+ DSA question in acciojob portal.

SKILLS

Java | OOPs | My -SQL | SQL | DBMS | OS

SOFTWARE SKILL

Database

Good knowledge of SQL/Relational databases like MySQL and Oracle.

Tools

Having good interactions MySQL Workbench and Netbeans.
