### About Me

Self-motivated and hardworking individual seeking an opportunity to contribute skills and knowledge in a dynamic work environment. With 4 months of experience as a software developer, I aim to secure a challenging position where I can effectively utilize my expertise and contribute to the organization's growth.

### Experience

Software Developer at Princess Jyotsana Softwares with **6 months of experience**, specializing in **C#, .NET, MySQL, MS SQL, Ajax and JavaScript**. Contributed significantly to web development projects, showcasing strong technical skills in problem-solving and collaboration within cross-functional teams. Played a key role in the success of innovative projects, **actively engaging in SQL-related tasks, including database design, query optimization, and data manipulation, to enhance the efficiency and performance of database-driven applications**. Eager to bring technical expertise to new challenges and contribute to the success of future projects..
