CAREER SUMMARY

React Native Developer with 1 year of experience, skilled in TypeScript, Expo, and Node.js. Proven ability to build and maintain high-quality React Native mobile applications. Expertise in developing user interfaces, optimizing performance, and integrating with backend APIs.

SKILLS

LANGUAGES: HTML, CSS, JavaScript, Typescript

FRAMEWORKS: React Native, React, Express

SOFT SKILLS: Teamwork, Management skills

EXPERIENCE

Associate Developer

Oct 2022 - Present

XBI4, Tenkasi

- Contributed to the development, debugging, and maintenance of an expo-managed **Media Career Collaborative app**, where users can use the app as a social media platform to post Images /Videos /Texts as well as interact with Film-related Jobs
- Used **JWT tokens** to enhance the security of user authentication and authorization
- Implemented token-based authentication for accessing private router information on the server
- Worked on Node JS Express application to handle requests to the mobile app
- Also, helps in API Integration, Form Validations using Zod, and Bug fixing for other expo-managed projects and React projects
- Worked on web scraping tasks using Puppeteer

PROJECTS

1. Mood tracker

Aug 2023 – Present

- developing a full-fledged **Mood stream** react-native mobile app
- where user can express their current mood through different emojis
- Users can add titles, descriptions, and even Images to it if they want to add
- Technologies:
 - **Typescript** – Ensure type safety in the application
 - **Express with Typescript** - backend server to handle requests from the mobile application
 - **MongoDB** - Database to store data posted by the user
 - **Firebase** - store Images uploaded by the user

EDUCATION

Bachelor of Engineering (B.E.) - Mechanical Engineering

Jul 2016 - Mar 2020

Government College of Engineering, Bodinayakanur
