

# ROHIT MENGJI

React JS Developer

rohitmengji403@gmail.com | +91 6361614017 | Gulbarga, KA, India

**HackerRank** | **Linkedin** | **GitHub**

## EDUCATION

### Vivekanand Institute of Management

Degree in Bachelor's of Computer Applications - [BCA]

GPA: 7.27

Gulbarga, India

Aug 2019 - Nov 2022

### Mahesh Pu College

Science 12th

Percentage: 55%

Gulbarga, India

Jun 2017 - Jul 2019

## EXPERIENCE

### Dot Angle Ventures LLP | React JS Developer

Mysore, India | Jun 2023 - Sept 2023

- Led the development of a robust e-commerce platform specializing in the online retail of premium cold-pressed oils, leveraging React.js.
- Customized the user experience to highlight the unique qualities of cold-pressed oils, including implementing features for detailed product descriptions, usage recommendations, and customer reviews.
- Optimized initial page load for an e-commerce project by 40% using advanced React.js techniques, including Code Splitting, Lazy Loading, Tree Shaking, Server-Side Rendering (SSR), and Memoization.
- Orchestrated robust user authentication workflows encompassing signup, login, OTP-based verification, and admin-exclusive controls for user management in the dashboard, optimizing security and enhancing user experience.
- Integrated with backend APIs to fetch and update product information, cart data, and user details, ensuring real-time synchronization between the frontend and backend systems

### ABC E-commerce Company - Freelancing | React JS Developer

Remote | Aug 2022 - Mar 2023

- Collaborated with the design team to ensure consistent branding and a seamless user experience across the platform
- User account: This feature allows users to create and manage their account information, view their order history, and save their payment and shipping information for future purchases
- Product catalog: This is the core feature of any ecommerce site, allowing users to browse and search for products, view product details, and add products to their shopping cart.
- Shopping cart: This allows users to store and manage the items they wish to purchase, view the total cost of their order, and proceed to checkout when ready.
- Checkout: This is where users enter their shipping and payment information to complete their purchase. It should be a simple and intuitive process to minimize cart abandonment.
- Product reviews and ratings: This feature allows users to share their opinions and experiences with products, helping other shoppers make informed decisions.

## SKILLS

Programming Languages: HTML5, CSS3, Javascript, Bootstrap5, Tailwind CSS, TypeScript
