Full Stack Java Developer

Naresh IT

Hyderabad, India

Netflix-inspired Movie Streaming Website

Designed and implemented the user interface (UI) for a movie streaming website inspired by Netflix. Created visually appealing and intuitive UI layouts using HTML5, CSS3, and Bootstrap 5. Ensured a responsive design that adapts seamlessly to different screen sizes and devices. Incorporated modern design elements, typography, and color schemes to capture the essence of Netflix's UI. Implemented interactive elements, transitions, and animations using jQuery and JavaScript to enhance user engagement and navigation.

EMI Calculator

Designed an intuitive and user-friendly interface for an EMI (Equated Monthly Installment) calculator. Developed the UI using HTML5, CSS3, and Bootstrap 5, ensuring a clean and professional design. Implemented interactive elements, such as input fields for loan amount, interest rate, and loan tenure. Incorporated JavaScript to handle user input and dynamically calculate the EMI based on the provided values. Validated user input to ensure accurate calculations and prevent errors. Displayed the calculated EMI along with a breakdown of the monthly principal and interest payments.

I hereby declare that the details furnished above are true and correct to the best of my knowledge.
