PROJECT DETAIL

KidLearns App (React -Native)

Descriptions:

- Developed and deployed a React Native mobile application focused on children's education, from concept to Play Store launch.
- This application is a children's learning app designed for nursery, junior kindergarten (Jr. KG), and senior kindergarten (Sr. KG). I independently handled all aspects of the app, including data input, logo creation, and UI design
- In this App all categories like Fruits,Vegetables,Numbers,Alphabets,Animals,Birds,Stories, Rhymes,Professions,Good Habits with audio features added in this app.

E-commerce-app (React -Native)

Descriptions:

- This App design and implementation of the user interface for a dynamic e-commerce mobile application, focusing on visually appealing user experience. Implemented a modern design with a bottom navigation pattern for seamless navigation.

React Js

Descriptions:

- Implemented crucial front-end enhancements in a client project using React.js, focusing on optimizing user interfaces and elevating overall user experience.
- Contributed to the front-end evolution of a client project, incorporating React.js for targeted UI improvements and ensuring a seamless, responsive design.
