PROJECTS

Wine Quality Prediction

APRIL 2023 - MAY 2023

Quality of wine depends on multiple features. In this project the quality of wine is predicted using a supervised learning method using machine learning algorithms on a dataset which is taken from the kaggle and preprocessed and implemented using python.

Elaywer

OCTOBER 2015 - APRIL 2016

Create a desktop website for customers to hire a lawyer. Customers can view all previous verdicts on the website implemented using php and mysql.

Image classification

SEPTEMBER 2023 - OCTOBER 2023

This project is based on types of animals and their classification. Have a dataset of images on animals of different types. This dataset is fed to a model, trained using convolutional neural networks.

EDUCATION

M T Jariwala, Surat- *SSC - 49.20*

JUNE 2015 - MARCH 2016

Bhagwan Mahavir Polytechnic, Surat - *Diploma - 7.67*

AUGUST 2018 - JULY 2021

ITM (SLS) Baroda University, Vadodara - *B.Tech - 5.94*

OCTOBER 2021 - APRIL 2024
