ABOUT ME

i am a javascript developer, who started my software development as a trainee in functionUp bootcamp and learned backend development with technologies like nodejs, expressjs, mongodb and many other libraries.I also made some of the projects like blog management,url shortner, e-cart management under the supervision of the functionUp.Then after completion of the bootcamp i found that i am more interested towards mobile development and started learning react native and made some of the apps like chatting app,food dellivery app etc. currently i am learning state management,testing libraries,async api calling etc.and looking forward to work in an organization where i can upgrade my skills and knowledge in right path under the guidance of expert seniors.
