PROJECT

To-Do List Application:

Project Description:

Designed and implemented a To-Do List Application using HTML, CSS, and JavaScript. Developed key features, including task addition and completion tracking, resulting in an intuitive and user-friendly task management solution. Leveraged HTML for structure, CSS for styling, and JavaScript for dynamic functionality. Highlight the key features, such as adding tasks, marking tasks as completed, and dynamically updating the task list. Emphasize how the project addresses the problem of task management and showcases your problem-solving skills. If you collaborated with others or received feedback, mention it to show your ability to work in a team and your openness to constructive input.

CERTIFICATIONS & TRAINING

- Certified from JAVA FULL STACK DEVELOPER.
- Certified from TCS NQT Score Card.
- TCS ESG Virtual Experience Program.
- **Volleyball Certification**: Achieved certification in volleyball, showcasing proficiency and commitment to sportsmanship.
